Profile

Frontend Developer with 3+ years of experience building scalable, high-performance web applications using React, Next.js, and Angular. Proven track record of improving application performance, enhancing user engagement, and delivering business-focused solutions in fintech and SaaS domains.

Skills

HTML,CSS, SCSS

Javascript, Typescript

Reactjs, Nextjs, Angular, React Native
Frameworks

Bootstrap, Tailwind
CSS Frameworks

Git
Version Control

Redux toolkit, Rxjs, Mantine
Libraries

Node.js, Nest.js
Backend

Professional Experience

Frontend Developer 2024/09 – present | Bardoli, India
Parth Hosting

- Developed and maintained scalable web applications using React.js, Next.js, and Node.js
- Collaborated with cross-functional teams to implement UI/UX designs and backend-integrated features, improving overall usability
- Built reusable and modular components using React.js & TypeScript, enhancing maintainability and reducing development time
- Designed and developed RESTful APIs using Node.js and Nest.js, enabling seamless frontend-backend communication
- Integrated frontend applications with backend services and APIs, ensuring efficient data handling and performance
- Designed high-fidelity prototypes in Figma, reducing redesign iterations and accelerating feature delivery
- Participated in code reviews, ensuring clean, scalable, and efficient full-stack code practices
- Debugged and resolved issues across both frontend and backend layers
- Collaborated closely with backend teams to enhance application functionality and system architecture

Frontend Developer 2023/01 – 2024/09 | Valsad, India
1*Rivet LLP*

- Reduced page load time using lazy loading, memoization, and API optimization techniques.
- Collaborated with back-end developers and designers to enhance usability and maintain design consistency.
- Created high-fidelity prototypes and mockups to visualize features.
- Integrated new features and enhancements to improve the overall user experience.
- Wrote clean, reusable, and scalable code for future use.
- Achieved 100% cross-browser compatibility.

Internship (Frontend Developer) 2022/08 – 2022/12 | Valsad, India
1*Rivet LLP*

- Developed user interfaces using clean, efficient, and modular code.
- Gained hands-on experience in front-end development by completing a project.

- Collaborate with UI/UX designers to translate wireframes and mockups into functional components.

Assistant Professor 2019/07 – 2022/06 | Bardoli, India
Uka Tarsadia University

Education

M. Tech. in Information Technology 2017/07 – 2019/03 | Bardoli, India
Uka Tarsadia University

B. E. in Computer Science and Engineering 2013/07 – 2017/03 | Sarigam, India
Laxmi Institute of Technology

HSC, Class XII 2011/07 – 2013/03 | Dungri, India
GSEB Board

SSC, Class X 2010/07 – 2011/03 | Dungri, India
GSEB Board

Projects

Stock Disha Portal (Web & Mobile App)
React.js, Next.js , Tailwind CSS, React Native, React Native Paper
- Developed a full-stack stock research platform with web and mobile applications.
- Built scalable frontend applications using React.js and Next.js, focusing on performance, SEO, and responsiveness.
- Developed and integrated backend APIs using Nest.js for subscription management, KYC processing, and user authentication.
- Implemented features like secure login, plan selection, KYC workflows, and payment-related flows.
- Built an advanced Admin Panel for managing users, content, and subscriptions with real-time data updates.
- Integrated frontend with backend services using REST APIs, ensuring seamless data exchange.
- Developed responsive UI using Tailwind CSS maintaining consistency across devices.
- Designed and launched a mobile app using React Native, ensuring cross-platform compatibility.
- Collaborated with stakeholders to align product features with business and regulatory requirements.

Navdant Dental Clinic App
React Native, TypeScript, React Native Paper, JWT, Axios, React Hook Form, Yup
- Developed a cross-platform mobile application for managing dental clinic operations, including patient registration, appointment tracking, digital medical records, and expense management.
- Designed and implemented a role-based authentication system with secure JWT token handling and automatic session refresh.
- Built an intuitive patient module with advanced search, filter, and pagination features for efficient record management.
- Integrated multi-step patient registration forms with real-time validation using React Hook Form and Yup, enhancing data accuracy and user experience.
- Developed comprehensive patient profiles featuring medical history, digital consent forms, QR-based smart ID cards, and secure document storage.
- Implemented an expense tracking system with custom categories, monthly reports, and spending analytics to streamline clinic financial management.
- Created responsive UI with React Native Paper, ensuring a consistent experience across phones and tablets.

Ekatra
React, Mantine
- Developed a web application to manage various organizational activities for internship programs, including leave management, intern management, training processes, and roadmap tracking for different domains.
- Built the application using React for the frontend, with Redux for efficient state management and data handling.
- Designed features to streamline tasks such as tracking intern progress, managing leaves, and organizing training modules.

- Implemented a clean and user-friendly interface to improve usability for both administrators and interns.
- Ensured seamless performance and responsive design across devices and browsers.

Personal Finance Tracker
React, Mantine, Redux
- Built an intuitive web application to assist users in monitoring income, expenses, and savings goals.
- Integrated features for creating and managing personalized budgets, offering real-time insights into financial health.
- Designed user-friendly dashboards for tracking spending patterns and generating monthly financial reports.
- Implemented secure data handling and cloud storage to ensure user privacy and easy accessibility across devices.

Erdos
React, HTML, CSS, Nest
- Built a full-stack project management platform using React.js and Nest.js to streamline task workflows and team communication.
- Developed and maintained RESTful APIs using Nest.js for project management, user roles, and task operations.
- Designed and implemented a dynamic prompt library with structured backend data handling for storing and organizing AI prompts.
- Implemented role-based authentication and access control, including user assignment and permission management.
- Integrated frontend with backend services, ensuring efficient API communication and data flow.
- Designed scalable modules for projects, tasks, and user management, improving collaboration across teams.
- Enhanced user experience with real-time validations, dynamic previews, and responsive UI.

Gayatri Rolling Shutters and Fabricators
React, HTML, CSS
- Designed and developed a responsive web application for Gayatri Rolling Shutters and Fabricators to effectively present their products, services, and company profile.
- Utilized React for the frontend to deliver a modern, intuitive, and seamless user experience.
- Implemented core features, including product showcases, service descriptions, and an inquiry form, to enhance customer interaction and streamline inquiries.
- Created a user-friendly interface with easy navigation, ensuring compatibility across multiple devices.
- Focused on optimizing performance while adhering to contemporary web standards for reliability and responsiveness.

Aahra Designs
HTML, SCSS, JavaScript
- Designed and developed a responsive and visually appealing UI for the Eccorace website using semantic HTML and modular SCSS.
- Translated Figma/mockup designs into pixel-perfect web pages while ensuring cross-browser and device compatibility.
- Implemented smooth navigation and interactive elements using vanilla JavaScript to enhance user engagement.
- Optimized UI components for performance and accessibility to ensure a seamless user experience.

Kaushal Coaching Institute (Web Application)
React.js, Node.js
- Developed a full-stack web application using React.js and Node.js for managing coaching institute operations.
- Built responsive and user-friendly interfaces to display courses, batches, and institute information.
- Implemented dynamic content handling and optimized performance for better user experience.
- Ensured smooth navigation and structured UI for students and administrators.

Kaushal Kids Wonder Nest (Preschool Website)
HTML, Tailwind CSS
- Designed and developed a responsive preschool website using HTML and Tailwind CSS.
- Created visually appealing UI to present programs, activities, and school information for parents.
- Structured pages for programs, admissions, and contact details with a clean and modern layout.
- Focused on mobile responsiveness and user-friendly design for better accessibility.
